

## Knitting with Eyelet Lace

### To pleat lace:

Cut specified number of lace pieces to the required length (or number of holes) as per the pattern instructions. When pleating lace, the face is held at right angles, up from the knitting, and each piece of lace is knitted into every second row as per the pattern instruction "pleat lace".

To "pleat face", place lace to back of work so lace is at right angles, up from the work.

Insert needle into the pleat stitch and through two eyelet holes in lace. Yarn over needle and complete the stitch.

Continue with plain knitting until next "pleat lace" and pleat in the next piece of lace.

Continue in this manner to the end of the row.

### To pleat **lace**:

Cut specified number of lace pieces to the required length (or number of notes) as per the pattern instructions. When pleating lace, the lace is held at right angles, up from the knitting, and each piece of lace is knitted into every second row as per the pattern instruction "pleat lace".

To "pleat lace", place lace to back of work so lace is at right angles, up from the work.

Insert needle into the pleat stitch and through two eyelet holes in lace. Yarn over needle and complete the stitch.

Continue with plain knitting until next "pleat lace"<sup>1</sup> and pleat in the next piece of lace.

Continue in this manner to the end of the row.
